### Short Sketches of Republican Nominees

(Continued from page 2.)

man. He has unlimited faith in the future of the Minibres valley; has one of the best pumping outfit's ever installed, and has done as much towards proving the virtues of the lower part of the valley as any other man.

Col. Bailey was for several years a resident of Wisconsin and at one time served on the board of county commissioners of that state. He was one of the builders of the Duluth & Winnipeg railroad and was general manager of the same. He is one of the promoters of Colorado, Columbus and Mexican railroad, which has been surveyed from Farmington through the Huerf mountain country, past Deming to Columbus and the Mexico line, and which when completed will mean more for the Minibres valley than any other project that has been promoted for many years. And the Columbus well informed that this company will be laying the steel for this line before many months have elapsed. When this road is constructed the building will be begun at Deming and work done both ways until the entire 450 miles of survey have been covered. A moment's consideration upon the part of anyone will readily convince them as to the unmeasurable value of this north and south railway line.

Col. Bailey with his large experience in highway and railroad building knows how it ought to be done. He is very anxious for the roads of the valley to be put in the very best possible condition, and it was only through the urgent appeals of his many friends that he finally consented to make the campaign. There is no man in the county better qualified for this position than Col. A. G. Bailey.

D. J. M. Williams, the candidate for county commissioner of the Second District has been in Luna County nearly three years, coming to this state from Kentucky where they know what good roads are and what is necessary to make them.

Dr. Williams is a land owner and tax payer having a fine farm southwest of Deming on which he is raising rice with one of them

being fitted with an electrically driven pump which throws 300 gallons of water per minute. Dr. Williams is strong in his faith for the future of the Minibres valley and is anxious to show to the people of the county his ability and desire to make of this section one of the garden spots of the union. He says there is nothing that will help to bring prosperity any quicker than good roads. He believes in personal equality and the giving to each that which is his right, inheritance and legal due. If elected Dr. Williams will be found "on the job" every time it is needed. His ear will always be open to the voice of the people, and his utmost endeavors will be put forward towards the constructing of suitable highways for the Minibres valley and Luna County.

Miss GRACE GOEBEL, the nominee for county superintendent of public instruction is a graduate of one of the best high schools of Illinois. Added to this she has had special training in the Northern Illinois Normal and the Chicago Training School. She has had fifteen consecutive years experience teaching and holds a first grade certificate.

Miss Goebel is not only a very competent instructor but a thorough business woman as well. She has great force of character, is pleasant to meet and understands thoroughly the duties required of a county superintendent. Miss Goebel will poll the almost unanimous voice of the southern end of the county regardless of politics, and her many friends in the other precincts will roll over for her a large majority which will be sufficient for her election. Miss Goebel will go into office with the best educational requirements of any person who ever filled that position in Luna County.

### For Sale

Two wall tents, also small pumping plant in first-class condition. Very cheap.

E. A. Carlock.  
Location counts nine points in the selection of town property. The Rice Addition will appeal to those looking for the best. P. G. Mosley, Local Manager Rice Addition.
